## **Ministry of Natural Resources and Environmental Sustainability Officials Commends Cenviro Sets the Benchmark for Other Players to Follow**

**SEREMBAN, 20 MARCH 2024** – The Minister of Natural Resources and Environmental Sustainability, YB Nik Nazmi bin Nik Ahmad, visited the largest integrated hazardous waste facility in the region, Cenviro Waste Management Centre located in Negeri Sembilan. Accompanied by Dr. Norhazni Mat Sari, Deputy Director General (Operations) of the Department of Environment (DOE), and Encik Hamzah Bin Mohamad, Director of DOE Negeri Sembilan, were given an exclusive tour of the facilities, providing invaluable insights into Cenviro’s operations, advanced technology, and stringent compliance measures.

Led by Group Managing Director of Cenviro, Dr. Johari Jalil, the visit highlighted Cenviro’s steadfast dedication to environmental stewardship and operational excellence towards advancing Malaysia.

Interactive discussions facilitated an exchange of ideas on industry best practices, regulatory frameworks, and potential collaboration avenues, further enhancing our commitment to sustainable waste management practices.

This visit serves as a testament to Cenviro’s ongoing efforts to align with national environmental objectives and contribute positively to the community and the environment, while actively progressing towards a circular economy.

Minister YB Nik Nazmi Nik Ahmad said, “Malaysia intends to grow our circular economy through recycling including urban mining and waste to energy plants. Cenviro, a home-grown company, has set the benchmark for other players to follow.”

“We extend our sincere appreciation to Minister YB Nik Nazmi bin Nik Ahmad, Dr. Norhazni Mat Sari, Encik Hamzah Bin Mohamad, and the entire delegation for their invaluable insights and engagement.” said Dr. Johari Jalil.

### **About Cenviro**

Cenviro Sdn. Bhd. is a majority-owned investee company of Khazanah Nasional and SK Ecoplant as a shareholding partner. As a modern resource company, Cenviro through its subsidiary Kualiti Alam Sdn Bhd, owns and operates Malaysia’s first integrated Waste Management Centre in Negeri Sembilan which has been in operation since 1998. The centre holds the license to handle 76 categories of 77 scheduled wastes listed under Environment Quality (Scheduled Wastes) Regulation 2005 for collection, treatment, recycling, recovery and final disposal. Cenviro also involved in integrated solid waste management through its joint-venture company, E-Idaman Sdn Bhd. Additionally, Cenviro extends its operations in electronic waste management via its associate stake in Shan Poornam Metals Sdn Bhd.
